

Amendment Dated September 27, 2004

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

1. (currently amended) Method of delivering goods or services to a user, such as a temporary authorization to park an automobile vehicle, by an automatic terminal [(1)], such as a parking voucher dispenser, [characterized in that it comprises] said method comprising the [following] steps of:

- i) identification of the user by the terminal, and
- ii) after identification of the user, automatic assignment by said terminal of particular conditions specific to the user for the delivery of goods or services.

2. (currently amended) Method according to claim 1, [characterized in that] wherein said particular conditions relate more particularly to the price of [and/]or the method of payment for said goods or services.

3. (currently amended) Method according to [either preceding] claim 1, [characterized in that] wherein said identification step [consists in] includes comparing identification data supplied by said user with identification data stored at least partially in said terminal [(1)].

Amendment Dated September 27, 2004

4. (currently amended) Method according to claim 3, [characterized in that] wherein the identification data stored in said terminal [(1)] is regularly downloaded from a remote server connected to said terminal [(1)] by an appropriate telecommunication network.

5. (currently amended) Method according to [either] claim 1 [or claim 2], [characterized in that] wherein said identification step [consists in] includes comparing identification data supplied by said user to identification data stored in a remote server to which said terminal [(1)] is connected by an appropriate telecommunication network.

6. (currently amended) Method according to [any of] claim[s] 3 [to 5], [characterized in that] wherein said identification data supplied by said user [comprises] includes the number of a payment card, said number being read by appropriate reading means of said terminal [(1)].

7. (currently amended) Method according to [any of] claim[s] 3 [to 6], [characterized in that] wherein said identification data supplied by said user further comprises a number communicated to said terminal [(1)] by said user by means of input means [(2)] of said terminal [(1)].

8. (currently amended) Method according to [any of] claim[s] 3 [to 7], [characterized in that] wherein said identification data supplied by said user further comprises

Amendment Dated September 27, 2004

the telephone number of said user.

9. (currently amended) Method according to [any of] claim[s] 3 [to 8],  
[characterized in that] wherein said identification data supplied by said user further comprises  
the number of an information medium uniquely identifying the user, such as a loyalty card, said  
number being read by appropriate reading means of said terminal [(1)].

10. (currently amended) Method according to [any of] claim[s] 3 [to 8],  
[characterized in that] wherein said identification data further comprises a password personal to  
said user.
